## TAPE DISPENSERS

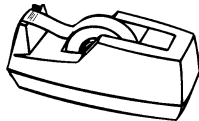

**Hand Dispenser** is portable and fits in a desk drawer. Two-piece plastic construction with a metal cutting knife. New smoke-colored style. Accepts tape with a 1" core.

MMM126	1/2"	.82
MMM127	3/4"	.82

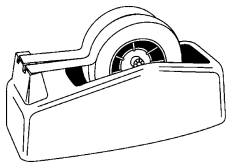

**3M C-15 Decor Dispenser** is popular for the desk top and will hold a wide variety of tapes. Non-slip foam rubber base won't scratch surfaces. Available in black and putty. Accepts up to 3/4" wide tapes with a 1" core. 36 yards.

MMMC15 7.90

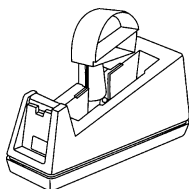

**3M C-40 Deluxe Desk Dispenser** with a built in tape drum. This dispenser has contemporary styling and high impact-resistant plastic construction to make it a favorite. Non-slip foam rubber base won't scratch surfaces. Permanently attached 1" tape drum cannot get lost. Available in black or putty. Holds up to 3/4" wide tapes with a 1" core.

MMMC40 11.11

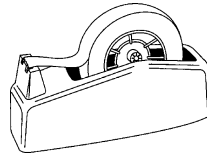

**3M C-22 Heavy Duty Multiple Roll Dispenser** is a convenient, counter top dispenser for single tape rolls up to 2" wide, or two 1" rolls. Heavy-duty, non-slip construction of high impact plastic. Holds tape with a 3" core size. Weight 4 1/2" pounds.

MMMC22 72.18

**3M C-25 Heavy Duty Dispenser** has a built in tape drum. Rugged high impact construction with contemporary styling and built-in tape drum that stays with the dispenser. For most filament, paper, and film tapes up to 1" wide on a 3" core.

MMMC25 31.33

**3M C-23 Heavy Duty Dispenser** for long roll tapes. The C-23 dispenser's non-slip foam rubber base won't scratch surfaces. It is ideal for mailing, shipping, and wrapping applications. High impact plastic in neutral color. Dispenses tape up to 1" wide on a 3" core.

MMMC23 47.47

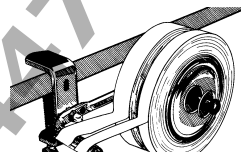

**3M H-12 Filament Tape Dispenser** is portable and features a hand brake which allows tension to be applied while reinforcing the package. Lightweight, high-impact plastic construction. Holds tape up to 1" wide X 60 yards.

MMM12 25.40

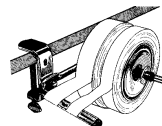

**3M H-122 Box Sealing Tape Dispenser** with hand brake. It is small, compact, with a hand-brake device that allows the operator to apply tension to box sealing tapes during use for a tighter seal. Use with 3750 Box Sealing Tape. Holds up to 2" wide X 60 yard tapes on a 3" core.

MMM122 32.62

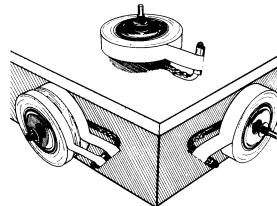

**HD200 "Quick-Klamp" Dispensers** quickly clamp to the edge of a desk or drafting table with a thumbscrew. It holds one roll up to 1 1/2" wide or two rolls with a combined width of up to 1 1/4". Metal core flanges hold rolls. For 3" core tape rolls.

ALVHD200 22.50

**HD202 "Quick-Klamp" Dispenser** holds one roll up to 3 1/4" wide; two rolls with a combined width of up to 2 3/4"; or three rolls with a combined width of up to 2 1/4".

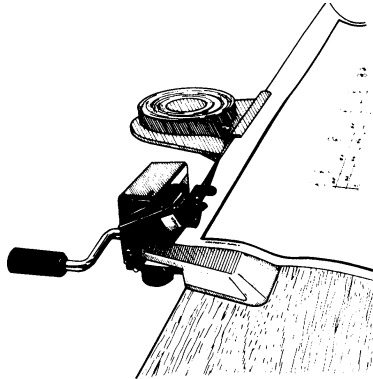

ALVHD202 24.50

**HD100 Rigid Mount** is a versatile roll for both regular and filament style tapes. It can be mounted on any surface. It holds one roll up to 1 1/2" or two rolls with a combined width of up to 1 1/4".

ALVHD100 13.95

EDGING MACHINES

**Alvin "Reinforcer" Edging Machine** is an easy to use system that protects important drawings and documents by applying edge-binding tapes. Made of high impact plastic, the "Reinforcer" clamps onto any table or work surface, adjusts for paper thickness and adapts to a variety of edge-binding tapes. A stainless steel trimmer cuts tape neatly.

ALV5498 200.00

**Edge Binding Tapes** are made from a tear-proof PVC material that protects and color codes valuable drawings and documents. It is an excellent way to bind tax maps, protect blueprints at job sites, etc. Reinforced tape with binding thread is available in a variety of colors. Rolls are 1/2" wide by 80' long. Packaged 10/Box.

**Reinforced**

SPRAY ADHESIVES

**3M 6065 Spray Mount Adhesive** is a repositionable, clear, artist's adhesive that allows positioning of a variety of light-weight materials on layouts, paste-ups and mechanicals. Spray Mount is excellent for mounting newsprint and other delicate papers. Sprayed on one surface only, it holds firmly, yet allows lifting for smoothing out wrinkles or for repositioning, even after a long period of time. Available in 16 fl. oz. can.

MMM6065 12.96

**3M 6094 Photo Mount Adhesive** is a clean, nonstaining aerosol adhesive that produces high strength bonds. It's a fast, convenient way to mount photographs of all types, including RC and other coated materials, up to 16" X 20" in size. The nozzle delivers an even, consistent fan-shaped pattern and adjusts for horizontal or vertical fan. Prints can be repositioned before pressure is applied during the five minute open time. Bond becomes permanent with pressure. Available in 16 fl. oz. can.

MMM6094 12.31

**3M 77 Spray Adhesive** is an all purpose aerosol adhesive that is fast drying and water resistant. Ideal for use on a variety of surfaces. Bonds almost any art material or fabric instantly. Available in 24 fl. oz. can.

MMM77 13.82

**3M ReMount Repositionable Adhesive** goes on easier with less mist - which cuts down on overspray. It bonds quickly to a variety of surfaces, and lets you reposition or remove with virtually no adhesive transfer.

MMM6091 16.38

**3M Spra-Ment Adhesive** lets you spray and bond almost instantly. It is the recommended display adhesive for bonding cardboard, fabric, paper, plastics, corks, foils and more.

MMM6060 12.98

## RUBBER CEMENT AND SOLVENTS

**Best-Test Paper Cement** is made with a specially blended and treated formula which uses pure, natural, white rubber from the Far East. Different from multi-purpose glues, Best-Test is sold to do only one thing well, cement paper to paper. Commercial artists, draftsmen, advertising agencies and art teachers overwhelming choice is Best-Test. It won't curl or shrink or wrinkle. Try it for temporary or permanent mountings.

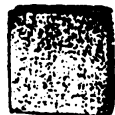

BTT138	4 oz. "Brush-in-Cap" Can	<b>3.10</b>
BTT139	8 oz. "Brush-in-Cap"	<b>5.65</b>
BTT101	Pint Can	<b>7.20</b>
BTT102	Quart Can	<b>11.90</b>
BTT103	Gallon Can	<b>35.85</b>

**Best-Test One Coat Rubber Cement** is a pressure sensitive rubber cement developed for the graphic arts and printing industries who need to hold artwork firmly in place, yet may need to reposition elements quickly and cleanly. The One Coat is not a substitute for the original paper cement, but it answers the major problem of how to reposition work without using solvents and thinners.

BTT402	Quart Can	<b>12.00</b>
BTT403	Gallon Can	<b>36.95</b>

**Bestine Solvent and Thinner** is used for thinning or reducing Rubber Paper Cements. An excellent thinner for frisket work. Bestine can also be used for cleaning metal types, metal rollers, metal stencils and electros.

BTT238	4 oz. Can	<b>2.50</b>
BTT201	Pint Can	<b>7.75</b>
BTT202	Quart Can	<b>11.00</b>
BTT203	Gallon Can	<b>29.90</b>

**PIK-UP** replaces the conventional artist's "mouse." Easily removes excess rubber cement. Best for small areas and tight corners.

BTT700		<b>1.45</b>
--------	--	-------------

**Rubber Cement Dispensers** are economical and practical for handling rubber cement. Air-tight and easy opening, with a sliding brush that can be adjusted to cement level. Constructed of non-rusting metal parts.

BTT300G	9 oz. Glass Dispenser	<b>8.00</b>
BTT500G	16 oz. Glass Dispenser	<b>9.25</b>
BTT500P	16 oz. Plastic Dispenser	<b>8.75</b>

**Solvent Dispensers** are leak proof and prevent evaporation of rubber cement thinner. The patented valve is hermetically sealed with just a twist. The double diaphragm dispenses by the drop or a steady stream of liquid.

ALV4575B	6 oz. Cone	<b>33.00</b>

**Lectro-Stik Waxer** allows you to roll on a strip of wax 1½" wide for a bond that is lasting yet always positionable. The Lectro-Stik waxer is the only electronic hand waxer on the market. Heats in 20 minutes. Precise temperature controls provide 18 watts of heating and maintains temperature precisely. The waxer requires no adjustment or upkeep. It is constructed out of tough, unbreakable, plastic body, rubber tires; knurled aluminum roller, triple anodized.  
LSWAXER **59.00**

**Lectro-Stik Wax** won't clump, it can be used immediately or any time later. Wax-coated sheets may be adhered temporarily face up for cutting and hairline trimming and then the trimmed pieces added to the layout. Further, these wax-coated pieces may be adhered temporarily near the layout, face up for easy selection. This ease of handling saves untold hours. The wax provides better hold than rubber cement, yet is always peelable. Since there's no solvent in the wax to dry out, the bond is reliable.  
LSWAX **4.79**

**Daige Procote 2000 Hand Waxer** gives you a solid 3" wax coating. With Procote's special roller a smooth micro thin coating is applied over the entire surface. The waxer has a pinpoint accurate temperature control system. A stronger heater to melt the wax faster and a thermostat to maintain and control the precise 180° temperature necessary for optimum wax flow and adhesion. The larger heating surface melts the wax faster, so you begin paste-up work sooner. Procote 2000 can be tilted, lay it down on its side, or even turn it upside down. It can't leak or spill. It is made in the USA with a special high heat resistant heavy duty plastic. Just turn on the waxer and leave it on its special stand, it will always be ready to use. At the end of the day, just switch it off.  
DAGPC2000 **69.95**

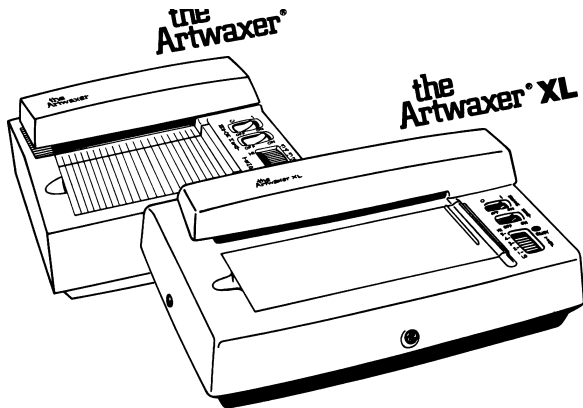

**Daige ProStik Wax** is designed exclusively for the Procote 2000. It's exclusive synthetic formula contains special pressure sensitive adhesives and plasticizers. This unique formula gives you controlled adhesion, easy lift off for repositioning and tight adhesion after burnishing. With ProStik wax the material stays down and never turns yellow.  
DAGPW10 **4.50**

**Daige Speedcote Waxer** is easy to use. Simply turn on the switch and in fifteen minutes, the light goes on telling you it is at the correct operating temperature for waxing. Feed your material into the Daige Speedcote and it automatically applies a smooth coating to any thickness of paper from 12" (or 18") wide down to ¼". Forget about the dial settings and temperature adjustments required to operate other waxers. The Daige Speedcote is fully automatic. It is constructed from aluminum and stainless steel. All moving parts run on oversized ball bearing for long trouble-free service. Every part is guaranteed for two full years. Comes with a burnishing roller and filled with wax.  
DAG1215 12" Roller **645.00**  
DAG1800 18" Roller **799.00**

**Daige BB9 Adhesive Wax** is made out of an exclusive formula to provide unsurpassed control for easy repositioning plus the strongest adhesion after burnishing. It's higher 180° melt point insures that paste-ups will not come unglued in hot environments.

DAGBB960	60 Bars per Box	<b>65.95</b>
DAGBB960SG	Single Bar	<b>1.10</b>

**Portage Artwaxer** for quick, clean, easy paste-ups. Choose solid rollers for intricate paste-up operations or wax-saving stripes for large areas. Patented open-end 5½" roller system permits waxing large-size materials such as a full newspaper page or a small copy correction with equal ease. The white plastic case stays cool, contains heat and is easy to keep clean. The thermostatically controlled heating element is cast right in the wax pan, reducing the need for replacements.  
PTGARTWAXER **439.00**

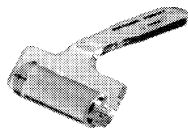

**Portage Artwaxer XL** is similar to the standard Artwaxer but has 8¾" rollers.  
PTGWAXERXL **559.00**

**Portage ARTWAX** is the one brand wax for any brand waxer. The wax applies evenly, eliminates bleed-through. Permits easy repositioning of copy. Economically priced.  
PTGARTWAX 10 lb. Box **49.95**  
**Super-Tacky** for those who prefer more tack.  
PTGSUPERTACKY 10 lb. Box **52.95**

**BURNISHING ROLLERS**

**Testrite Lucite Roller** has a 4" wide clear lucite roller. The finished wire handle rides in brass bearing for smooth rolling. Used for burnishing photos, type proofs, etc. Wax and rubber cement won't stick to the non-porous surface.  
TES44LB **9.95**

**Daige Standard Burnishing 3" Roller** is made of durable high impact plastic with a nickel plated handle.  
DAGM1217A **8.95**

**CLEANING PADS**

**WEBRIL® HANDI-PADS**

**Sprayway Glass Cleaner** is excellent for copyboards, camera lenses, vacuum frames, or glass print cylinders for processing machines. It ensures rapid exposures and clean, sharp prints. Sprayway glass cleaner does not leave a film.  
CHR188202 **3.65**

**SPRAY MEDIUMS**

**Krylon Crystal Clear Acrylic Spray Coating** gives a permanent protective coating. It helps prevent tarnish and rust. It seals porous surfaces. It adds strength and water resistance to paper and fabric, helps shed dirt.  
KR1301 **7.55**

**Krylon Crystal Clear Acrylic Spray Coating** gives a permanent protective coating for drawings, artwork, etc., after they have been finished.  
KR1303 **7.55**

**Krylon Matte Finish** leaves a permanent, non-gloss finish that eliminates glossy sheen and light reflection. It dries in minutes.  
KR1311 **7.55**

## ADHESIVES

**Krylon Workable Fixative Spray Coating** dries in seconds, it protects pencil, charcoal, chalk and pastels. No smudge, wrinkle or gloss. It is easy to erase through.

KR1306 7.55

**Blair No-Odor Spray Fix** gives permanent, workable protection to virtually any art medium with practically no odor. It protects pencil, charcoal, pastel, chalk etc. No-Odor Spray Fix dries faster than regular spray-fix. Ideal for crowded classrooms and studios.

BLA105L 7.95

**Blair Spray-Clear** gives an invisible plastic coating in high-gloss or soft non-reflective matte. Each is a permanent barrier to dirt, tarnish, wear, stains, moisture, etc. It protects drawings and layouts. It provides a glossy or matte finish to non-fired ceramics, paints, antiquing, decoupage, etc. It preserves and water-proofs. It is fast drying and never yellows.

BLA200P Gloss 7.25

BLA201P Matte 7.25

**Chartpak Clear Spray** is a permanent protective coating that seals out dirt and moisture and protects artwork such as photographs and graphic design layouts, proofs and typed material against smudging, fingerprints and fading. It will not yellow over time.

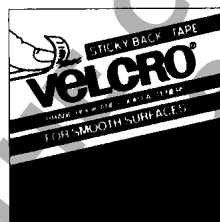

CPKCS 9.43

**Chartpak Workable Matte Fixative** is a transparent coating that fixes media such as pencil, charcoal and pastels. It dries quickly to a matte finish but allows you to erase or make changes in the artwork,
