

## PEN PLOTTER SUPPLIES

**Koh-I-Noor Fiber-Tip Plotter Pen** is one-piece with a bonded fiber or nylon plotting tip. This produces the brightest looking graphs and charts. It is excellent for area-fill applications and the highest quality overhead transparencies. The fiber-tip is available in two line widths (which gradually widen during use), and in up to ten brilliant colors. The ink can be used on either paper or water-reactive overhead transparency film. They can also be used on glossy or matte presentation papers and general purpose plotting paper.

## PEN PLOTTER SUPPLIES

### CALCOMP 102X, 104X and SIMILAR PLOTTERS.

**Rapidplot Fiber-Tip Plotter Pens** are one piece pens with a bonded fiber, or nylon plotting tip. This pen produces the brightest looking graphs and charts. The fiber-tip is available in two line widths (which gradually widen during use). The ink can be used on either paper or water-reactive overhead transparency film.

## PEN PLOTTER SUPPLIES

**Koh-I-Noor Rapidoplot DPP Disposable Plotter Pens** are a throw-away version of the refillable liquid-ink pen that offers the same high quality plots without the mess or maintenance associated with the refillable. The DPP is a two part system comprised of the nib and a pre-filled ink cartridge. The pen is available in two versions, one for paper and vellum the other for drafting film. These two versions have different types of ink and point materials to suit each of the different media. The paper version is available in four precision line widths and up to eight colors. The film version is available in up to 5 line widths and four colors.

## LIQUID INK PLOTTER PENS

**marsplot Liquid Ink Plotter Points** for precision plotting are manufactured to the highest quality standards. An optimally regulated, even ink flow ensures consistent line thickness even at high plotting speeds. marsplot points are extremely durable and resistant to solvent-based inks. They work on either the refillable cartridge principle or in conjunction with pressure-controlled ink feed systems, which make them extremely economical to use. The line thicknesses stated are approximate and depend on the media in use, plotting speed, viscosity of the ink and the pen force of the plotter.

**Stainless Steel** for plotter paper and vellums.

**CF Plotting Speed** is approximately 6-12 inches/second.

STD750PL1CF	0.18	<b>26.00</b>
STD750PL2CF	0.25	<b>23.85</b>
STD750PL3CF	0.35	<b>21.75</b>
STD750PL5CF	0.50	<b>21.75</b>
STD750PL6CF	0.60	<b>21.75</b>

**Tungsten Carbide** for matte plotting film, they are extremely wear-resistant against the abrasive nature of film.

**CF Plotting Speed** is approximately 20 inches/second.

STD757PL2CF	0.25	<b>62.40</b>
STD757PL3CF	0.35	<b>58.15</b>
STD757PL4CF	0.40	<b>54.85</b>
STD757PL5CF	0.50	<b>54.85</b>
STD757PL6CF	0.60	<b>54.85</b>
STD757PL8CF	0.70	<b>54.85</b>

**Koh-I-Noor Refillable Liquid Ink Plotter Pens** are designed to provide the highest quality plots. Refillables are also the longest lasting and most cost effective plotting pens when properly cleaned and refilled on a daily basis. These pens can be used on many different papers, vellum, or drafting film. They provide the most exact and consistent plots in up to 10 precise line widths. The system is composed of three parts: the nib, the pen body/adaptor, and the ink.

**63SB Stainless Steel** nib is designed for paper.

KOH63SB.18	4X0/.18	<b>21.95</b>
KOH63SB.25	000/.25	<b>21.95</b>
KOH63SB.35	0/.35	<b>21.95</b>

## ADAPTORS

**Refillable Liquid-Ink Plotter Pen Adaptors** are for use with 63 Series plotter points. These adaptors allow the plotter to hold and use the pen correctly.

**7006WOP Adaptors** are recommended for use with Houston Instrument, Calcomp 81 or 84 and similar plotters.

KOH7006WOP	<b>17.95</b>
------------	--------------

**7008WOP Adaptors** are recommended for use with Hewlett Packard, Ioline and similar plotters.

KOH7008WOP	<b>25.95</b>
------------	--------------

**7009WOP Adaptors** are recommended for use with Hewlett Packard short pen plotters and similar plotters.

KOH7009WOP	<b>25.95</b>
------------	--------------

**7011WOP Adaptors** are recommended for use with Calcomp and similar plotters.

KOH7011WOP	<b>23.95</b>
------------	--------------

In addition to the plotters listed, many of these can also be used on other plotters. Many other adapters are available, please inquire about your specific plotter.

**INK**

**3074 Rapidomat Ink For Plotters** is specially formulated for use in automated drafting machines for plotting on drafting film, paper or cloth. Also for manual drafting with extra fine technical pen point sizes (3X0, 4X0, 6X0). Rapidomat contains microfine carbon particles to assure a more consistent flow than provided by average drawing ink while maintaining a high line density. With plastic filler spout bottle. Black only.

KOH3074F                      3/4 fl. oz.                      **7.95**

**3081 Plotter Ink** is specially formulated for plotting on non-absorbent paper. It has a medium length drying time, yet the pen has an extremely long open time. It can be used with all pen sizes and is available in black, red, blue, green and brown. The colors are brightest when used on paper. It is available in 3/4 oz., plastic filler-spout bottles for fast, clean filling of plotter pen ink cartridges.

KOH3081F	Black	<b>5.00</b>
KOH3081FRD	Red	<b>5.00</b>
KOH3081FBE	Blue	<b>5.00</b>
KOH3081FGN	Green	<b>5.00</b>

**3090 Rapidoplot-P Plotter Ink** is specially formulated for plotting on paper and vellum. It is waterproof and fade-resistant. The ink has a medium length drying time, and the pen has a long open time. It can be used with all pen sizes and is available in black and opaque red, blue, green and light blue. It is available in 3/4 oz., plastic filler-spout bottles for fast, clean filling of plotter pen ink cartridges.

KOH3090F	Black	<b>5.00</b>
KOH3090FRD	Red	<b>5.00</b>
KOH3090FBE	Blue	<b>5.00</b>
KOH3090FGN	Green	<b>5.00</b>
KOH3090FLBE	Light Blue	<b>5.00</b>

**3091 Rapidoplot-F Plotter Ink** is specially designed for use on drafting film. It is waterproof and fade-resistant. The ink has a slow drying time and a medium open pen time. It can be used with all pen sizes and is available in black and opaque red, blue and green. It is available in 3/4 oz., plastic filler-spout bottles for fast, clean filling of plotter pen ink cartridges.

KOH3091F	Black	<b>5.00</b>
KOH3091FRD	Red	<b>5.00</b>
KOH3091FBE	Blue	<b>5.00</b>
KOH3091FGN	Green	<b>5.00</b>

**748PL marsplot Plotter Ink** is recommended for plotting on paper and vellum. It plots at a rate of 30cm/s-12 in/s. The ink produces high definition, intense lines with excellent reproduction qualities. It is available in 23 ml bottles.

STD748PL                      Black                      **5.85**

**748PLF marsplot Plotter Ink** is the same as the 748PL but for use on drafting film and has a faster plotting speed (50 cm/s-20 in/s).

STD748PLF                      Black                      **6.20**

For Additional Inks and Pen Cleaners and Cleaning Solutions look in the Technical Pen Chapter.

**PLOTTER MEDIA**

**OPAQUE BOND**

**Comstoc 130400 Opaque Bond** is 20 lb., An excellent choice for check plots, preliminary drawings, distribution plots and scissors drafting. Its opaqueness and high contrast make it a fine choice for photo reproduction. It is not suitable for diazo reproduction.

**100 Sheet Packages**

## PLOTTER FILM

**Comstoc Matte Polyester Film** is .003" thick. For maximum durability and dimensional stability, nothing matches polyester films. The special surface subbing readily accepts ink, and the anti-static treatments eliminate clinging dust and tracking problems.
