CRSX3240	32 X 40	3.48
CRSS4060	40 X 60	6.52

ILLUSTRATION BOARDS

Cold Press Illustration Boards are textured surfaces designed primarily for wash drawings, tempera, acrylic, pen and ink, pencil, charcoal, crayon, pastels and felt markers. Cold press as opposed to hot press is of a more permeable nature thus allowing the medium to be applied without fear of fast absorption therefore permitting smooth blending wash techniques. All surfaces strip easily for laser scanning.

Crescent No. 1 Illustrators Board is a premium, quality 100% rag cold press surface, mounted to a triple thick board middle. Extra heavyweight thickness allows use of a heavy wash and wet on wet techniques. Acrylics, designers colors, watercolor, pencil, pen and ink and charcoal respond beautifully on the special textured surface. The non-fluorescent surface is also suitable for fluorographic process.

CRS0001	30 X 40	11.48
---------	---------	-------

Crescent No. 99 University Grade is an economically priced, quality illustration board. The medium textured surfaces are adaptable to most art mediums.

Single Thick (.050)

CRS00991520	15 X 20	1.32
CRS00992030	20 X 30	2.40
CRS00993040	30 X 40	4.31

Crescent No. 100 and No. 300 are very popular, high rag content, medium surface - all purpose illustration boards. The subtly textured surface is excellent for wash drawings, felt tip markers, designers colors, acrylic, pencil, pen and ink, charcoal, crayon and airbrush. The non-fluorescent surface is also suitable for fluorographic process.

---------	---------	------

Letramax 2200 Cold Press Illustration Board offers a super white, medium tooth surface for superb color intensity and fidelity. Its rag content assures maximum control of a wide range of wet and dry media, including gouache, tempera, watercolor, charcoal, pencils, pastels and many others.

LMB22003040	30 X 40	6.60
-------------	---------	------

Hot Press Illustration Boards have smooth surfaces designed primarily for pen and ink techniques. Special calendering and surface sizing treatments provide non-porous smoothness, allowing the pen to flow clean, sharp and uninterrupted across the board. All surfaces strip easily for laser scanning.

Crescent No. 200 and No. 201 are the workhorses of hot press illustration boards. State-of-the-Art surface sizings and high rag content, provide a foundation that is suitable for most commercial art applications. These versatile boards respond to the tightest pen and ink techniques. Erasure, tape removal, art repositioning, mounting and fluoro art are achieved with optimum results.

Single Thick (.050-.060)

PRESENTATION PRODUCTS

Letramax Super Black 100 Presentation Mounting Board enhances your presentations with an extra-deep black surface that resists scuffing. Apply photography, artwork and creative presentations of all kinds using the adhesive you prefer. Or mat your work with style and finish. The black board is black all the way through, eliminating the need to touch up edges with a marker. You can use either side of the board, because both are clean, black and without printing. You can even apply acrylic inks or chalk directly to the surface for extra affect.

Magna Hold Paperboard are white paper sheets with an inner layer of steel foil which allows use with magnetic components. This inexpensive surface is ideal for "disposable" magnetic presentation boards. Paperboard surface can be printed, screened, spray painted or laminated. 10 mil. MAVMH2340 23" X 40" **21.95**

SPRAY ADHESIVES

3M 6065 Spray Mount Adhesive is a repositionable, clear, artist's adhesive that allows positioning of a variety of light-weight materials on layouts, paste-ups and mechanicals. Spray Mount is excellent for mounting newsprint and other delicate papers. Sprayed on one surface only, it holds firmly, yet allows lifting for smoothing out wrinkles or for repositioning, even after a long period of time. Available in 16 fl. oz. can. MMM6065 **12.96**

3M 6094 Photo Mount Adhesive is a clean, nonstaining aerosol adhesive that produces high strength bonds. It's a fast, convenient way to mount photographs of all types, including RC and other coated materials, up to 16" X 20" in size. The nozzle delivers an even, consistent fan-shaped pattern and adjusts for horizontal or vertical fan. Prints can be repositioned before pressure is applied during the five minute open time. Bond becomes permanent with pressure. Available in 16 fl. oz. can. MMM6094 **12.31**

3M 77 Spray Adhesive is an all purpose aerosol adhesive that is fast drying and water resistant. Ideal for use on a variety of surfaces. Bonds almost any art material or fabric instantly. Available in 24 fl. oz. can. MMM77 **13.82**

3M ReMount Repositionable Adhesive goes on easier with less mist - which cuts down on overspray. It bonds quickly to a variety of surfaces, and lets you reposition or remove with virtually no adhesive transfer. MMM6091 **16.38**

3M Spra-Ment Adhesive lets you spray and bond almost instantly. It is the recommended display adhesive for bonding cardboard, fabric, paper, plastics, corks, foils and more. MMM6060 **12.98**

Crescent Oversize 14-Ply Mat Boards are available in 51 of the above colors. These boards have the same characteristics of the 32 X 40 boards.

Crescent Museum Rag Mats are the premier line of all colored conservation matboards. Rag Mats consist of the finest quality, fade and bleed resistant, acid free colored surface papers, mounted to acid free - 100% rag middle with acid free - 100% rag backing paper. Available in 37 colors (.050-.055) Size 32 X 40 - pH 8.2 (.5). Buffered with Calcium Carbonate.

Crescent Rag Mat "100" solid color throughout, 100% rag-acid free museum boards and barrier papers. Soft contemporary colors. Fade and bleed resistant. Suitable for matting and mounting the fines works of art. pH 8.2 (.5). Buffered with Calcium Carbonate.

PRESENTATION PRODUCTS

magic Black Core

Crescent Black Core Mat Boards are single thick with acid free core and backing paper. There is no black rub off, the boards cut clean and easily. The boards are non-bleeding, fade resistant and come in 18 compatible surface colors. The black core mat board creates an illusory richness with dramatic depth and adds that magic touch to your mat designs.

Size: 32 X 40, Single Thickness (.050-.060)

Crescent Colored Drawing Paper and Flap Stock are subtly textured surfaces excellent for most art mediums: pastels, watercolors, pen and ink, felt tip markers, crayon, tempera, casein and acrylic paints. Many unusual effects can be achieved by doing artwork directly on these papers. These colored papers also match 56 of the colored mat boards in Crescent's line. This enables the artist to mat his work and have a more befitting and professional presentation.

Size: 22 X 32, 80# Basis Weight.
